

DO YOU KNOW YOUR RISK OF BREAST CANCER?

KNOW YOUR RISK. PROTECT YOUR FUTURE.

Breast cancer is the **second leading cause of cancer-related deaths** among American women

Up to **10% of all breast cancer** is caused by an **inherited gene mutation**¹

Women with certain genetic mutations can have **up to an 87% risk** of developing breast cancer by age 70²

1 in 40 women of Ashkenazi Jewish heritage have a BRCA gene mutation^{3,4}

Additional screening is recommended for **women with a >20% lifetime risk** of breast cancer⁵

Genetic mutations can be passed down from the **mother's or father's side** of the family

If you meet one of these criteria talk to your doctor today about Myriad myRisk[®] Hereditary Cancer testing*
